

Packages

Package 1 £1650

Coverage to start an hour and a half before the ceremony with one camera, and includes the following:

Title sequence of the bridal party. Interior and exterior shots of the church or venue including flower arrangements. The arrival of the groom and his party followed by guests, mother of the bride, the bridesmaids and finally the bride and her escort. The ceremony, vows, exchange of rings and the signing of the register. Bride and groom leaving the ceremony, guests during the photocall and the couples departure for the reception venue.

Pre-reception drinks, filming of the wedding reception decorations, formal line up of the guests and entry of the bride and groom into the wedding breakfast. The speeches, formal toasts and cutting of the cake. The first romantic dance of the evening (up to 9pm).

This package comes complete with our unique award winning end sequence, a three minute compilation of the days most emotive shots reproduced in beautiful black and white slow motion, edited to a music track of your choice, as seen on Wedding TV.

Each film lasts approximately one and a half hours for a church service, or one hour for a civil ceremony.

This coverage is ideally suited to a smaller ceremony with about fifty people.

To include one chaptered DVD copy in its own presentation case.

Package 2 £1995

As per package 1 with an additional camera. This gives the advantage of an alternative view from the back of the ceremony or service and is particularly important in order to film the readings or sermon in case the view of the main camera is restricted. Also when the main camera follows the bridal party for the signing of the register, another camera is available to film any singers or musicians. For larger weddings with over fifty guests we strongly advise a second camera, as it also captures alternative shots of the guests during the speeches and the first dance.

Package 3 £2495

As per package 2 with additional coverage of the bride's preparations to start three hours before the ceremony. The last few hours spent with close family and friends before leaving can produce classic moments, some funny, some emotional.

Package 4 £2995

As per package 3 with additional coverage of the groom's preparations.

Package 5 £3995

As per package 4, plus extended coverage of the evening events, including dancing, live entertainment and fireworks until midnight.

This is without doubt our most popular package!

Package 6 £4995

As per package 5 with further coverage provided by a third camera to capture additional footage at larger weddings and both the bride and groom during the vows to produce a split screen throughout the ceremony, as seen on our showreel. A third camera can also be used to record a live audio feed direct from the venue's sound system or the band's mixing desk, perfect if you have a live band performing during the evening.

Package 7 £5995

As per package 6 plus our international award winning wedding day music video.

This represents full coverage and excellent value for money!
